

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Cadmium in General Industry Standard (29 CFR 1910.1027). OSHA is proposing to decrease its current existing burden hour estimate from 121,177 hours to 92,259 hours, for a total decrease of 28,918 hours. Based upon a review of new data, the Agency reduced the number of plants and employees potentially exposed to cadmium. Additionally, while there was an increase in the cost of medical examinations, this was offset by a reduction in the number of employees receiving medical examinations which led to an overall cost decrease of \$1,546,815, from \$6,191,000 to \$4,644,185.

The Agency will summarize the comments submitted in response to This notice and will include this summary in the request to OMB.
